2.12 How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes :

At the beginning of the academic year, the academic calendar is prepared. Moreover, the Heads of the departments hold periodic meetings with the other members to discuss the syllabus in detail. The syllabus is apportioned among the teachers of the department. A month-wise teaching plan of every department and every teacher within the department is prepared for each term on the reopening of the College. Also, study material prepared by the teachers is provided to students in many subjects.

Our teachers undertake the lecture method as well as other interactive methods for teaching. Our teachers organize seminars and group discussions. Field trips and visits are also organized and this helps the students to gain practical knowledge. Often the teachers arrange for powerpoint presentations to aid their lectures. Slide projectors, internet inputs, subject-related film shows are also incorporated in the teaching-learning process. In some subjects, seminars and guest lectures by subject experts on various core areas are also organized. INTERNET facility is made available to the students and teachers for enhancement of their knowledge. Viva is conducted in the subject of Foundation Course – I (F.Y.B.Com), Direct & Indirect Tax and Labour Welfare (T.Y.B.Com).

All the self-financed courses follow a range of teaching – learning methods, which are used by the faculty.

- Projects and Presentations: - The students participate in group as well as individual projects. The students make presentations on the same to the respective subject teachers who submit an internal assessment report.
- Home and Class Assignments: - The students are given questions on which they have to write the required answers and submit to the teachers.
- Group discussions: - Group discussions are held to bring out the pros and cons of the subject under discussion.
- Tests: - Class Tests are conducted periodically. Thus is especially undertaken in technical subjects to strengthen their conceptual understanding.
- Viva –voce: - Sometimes questions are asked from specific chapters to sharpen the students' conceptual knowledge and to build in them the confidence to face interviews.
- Interviews: - The students are made to take interviews with stalwarts in the industry and share their learning and experience. Mock-interviews are taken in Effective Communication subject-tutorials to improve the students' communication skills.

The first step towards participatory learning is to make the students interested in the subject. The subject-concept must be made easily understandable and relevant to the contemporary situation. This is ensured by emphasizing the applied aspects of the subject. Seminars, group discussions, projects, excursions and industrial visits help to generate the students' interest in the subject. The goal of the College is not just to

help the students acquire good result and better their career, but also to make them better human beings and good future citizens. For this, the subjects are taught in a way that emphasizes their contemporary relevance.

There is a newly-renovated and spacious auditorium where seminars are organized for the benefit of the students. The large Library is well-equipped with computers and Internet connectivity. The Library annually adds to its stock the latest books as recommended by the teaching faculty. The Library also subscribes to over 51 periodicals. The students are encouraged to use all available knowledge resources to enrich their understanding of different subjects. Printed notes & study-material is given to the students in many subjects. Power Point presentations are given in various subjects like Direct & Indirect Taxation and M.P.P [Management & Production Planning] and Advertising.

The active use of Library facilities is encouraged among the teachers and the students. A variety of books, magazines, journals and Internet facility are made available in the Library. Talks and guest-lectures by distinguished personalities throughout the academic year are another unique learning resource for the teachers and the students. The teachers attend seminars, workshops and several faculty-development programmes. The teachers of the Commerce and Accountancy Departments attend workshops and seminars organized by professional bodies to keep their knowledge updated. The faculty members are encouraged to participate in Refresher and Orientation Programmes organized by the Academic Staff College and other University Departments.

The Self-Appraisal Method:

The Institution has adopted Self-Appraisal Method to evaluate the performance of the faculty in teaching, research and extension programmes.

At the end of the academic year every teacher is given Self-Appraisal Form. Self-Appraisal by teaching staff is mandatory. The form requires the teacher to give his/her self-evaluation of the academic, co-curricular and extra-curricular work done during that year. It also requires the teacher to enumerate the papers presented at conferences, seminars, refresher courses and orientation programmes.

The Departmental report filled by each teacher is also evaluated and it analyses the duties performed with respect to lectures completed as per the Teaching Plan and the number of lectures taken.

The Institution uses the evaluation to improve teaching/ research performance of the faculty.

The Principal appreciates good performance by any faculty member and persuades the other faculty members to enhance their own performance in the interest of the Institution and selfdevelopment.

Comprehensive Evaluation by students:

Evaluation by the students and peers has also been adopted in our College which helps in teachers' evaluation and development. At the end of the term, the students are asked to assess the teachers' performance by filling up teacher evaluation forms.
